Anything. Possible.

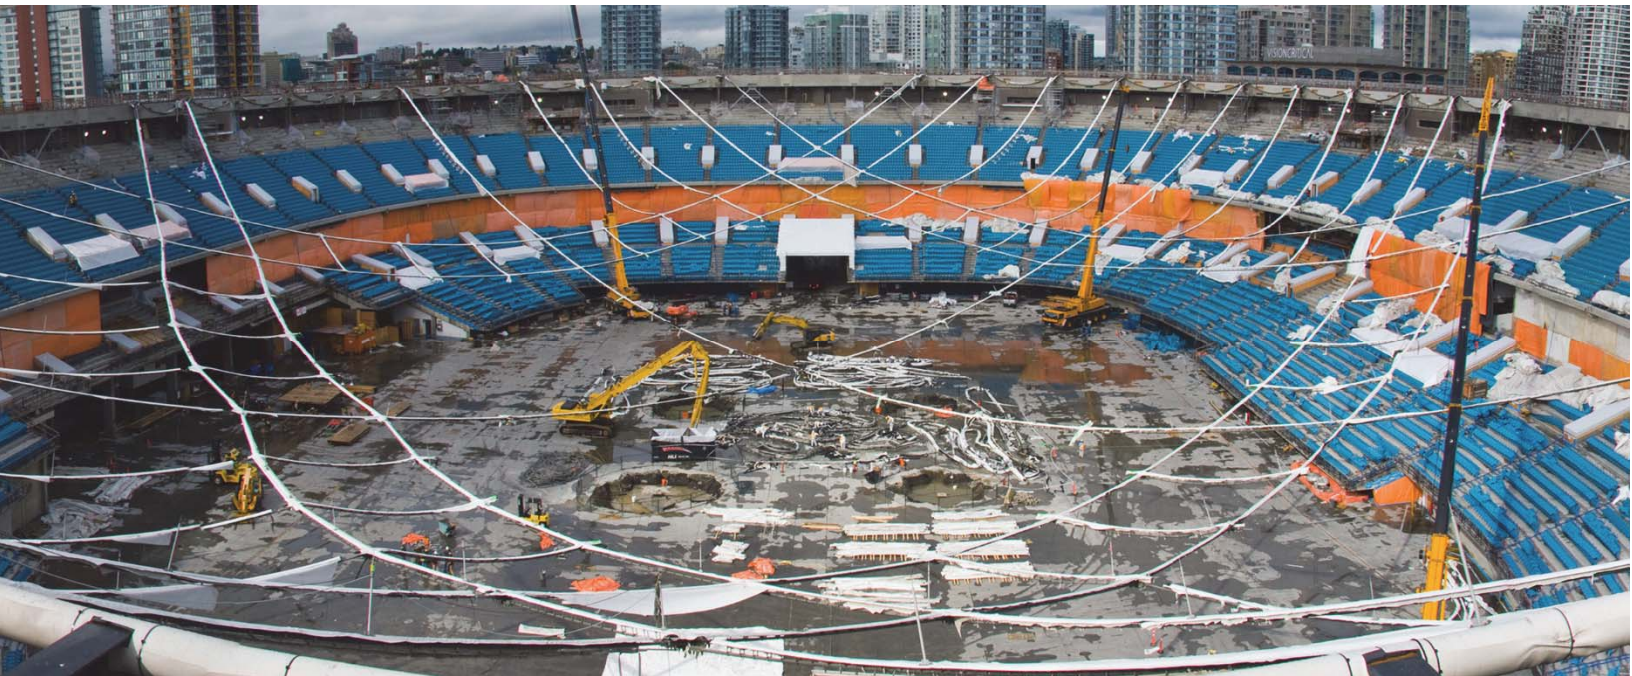

WE ARE WORLD LEADERS IN DEMOLITION

Providing a wide range of complete and selective deconstruction services since 1954.

Pacific Blasting & Demolition Ltd. brings over 60 years of experience, specialized equipment and expertise to your project. Whether you need to demolish a high-rise, preserve the façade of a heritage building or modify your commercial space, we have seen and done it all. We know how to coordinate all aspects of your project from permitting to hazardous materials abatement, sorting, asset recovery and environmentally responsible disposal. Our team works for a wide range of clients across western Canada; from heavy industrial, petro chemical and port facilities to a wide range of commercial spaces.

How our people work together to get the job done makes us who we are. While our fleet of modern equipment contributes to job safety and efficiency, it is our team of exceptional tradespeople and operators that sets us apart in the industry. Not only does our team have extensive experience in the industry, each member of our team maintains current safety and training standards, providing Pacific Blasting & Demolition Ltd. with ongoing COR Certification through WorkSafeBC.

At Pacific Blasting & Demolition Ltd., we are committed to working together safely and professionally to get the job done right.

WE ARE PART OF NORLAND LIMITED

A diverse group of companies that service every aspect of the construction industry.

Pacific Blasting & Demolition Ltd. is part of NorLand Limited. NorLand's 12 businesses all operate under one company umbrella, but each plays a different role in meeting the demands of their construction sector. Company-wide operations include but are not limited to: industrial moving, excavating & shoring, light & heavy civil works, materials handling design-build, ground engineering, controlled blasting, slope stabilization, mine & tunnel development as well as custom rock drills.

NorLand Limited employs up to 500 people depending upon project status and is fully insured and bondable. The company has annual revenues of \$180 million, is 100% Canadian-owned and based in British Columbia.

WE HAVE THE EXPERIENCE

Ready to meet the challenges of any project.

Our experience and dedication to service has allowed us to be part of a wide range of projects, develop our skills, and grow as a team. We have encountered numerous challenges and potential project roadblocks, only to overcome them with innovative techniques. From tenant improvements in malls to selective demolition of stadiums, we work with each client to ensure their unique project needs are met.

WE HAVE THE EQUIPMENT

A large fleet that's custom made for demolition.

At Pacific Blasting & Demolition Ltd., we take pride in our equipment. We have modern machines, customized to suit our needs. We ensure the proper maintenance of all our equipment for safety and reliability. Our large fleet and rigorous maintenance schedule means we come to your project ready to work, every time.

WE HAVE THE EXPERTISE

Our team has a focused, strategic and innovative approach.

We specialize in demolition. Whether you need us to demolish a cold storage facility or carefully deconstruct a control tower, we have the team, equipment and knowledge to make it happen. We bring the same focused and strategic planning approach to every project, along with the team to do the job safely and efficiently.
